

Online Insurance Portal

Objectives

- Create a digital insurance platform for comparing plans, purchasing policies, and filing claims online.
- Enable insurers to manage products, policies, and customer queries through an admin portal.
- Simplify the end-to-end insurance experience from onboarding to claim settlement.

Deliverables

- A fully functional Online Insurance Portal.
- Insurance plan comparison across health, life, and motor categories.
- Online policy purchase with document upload and payment.
- Customer portal for policy management and renewal.
- Claims submission with tracking and settlement status.

Requirements

- HTML: Structure comparison pages, purchase flows, and customer dashboards.
- CSS: Design a trustworthy and professional financial services UI.
- JavaScript: Handle plan comparison logic, premium calculators, and form validation.
- Backend: Manage policies, payments, claims, and customer data.
- Database: Store policies, customers, premiums, claims, and documents.

Advanced Features

- AI Premium Calculator: Estimate premiums based on user profile and risk factors.
- e-KYC Integration: Verify identity digitally during policy purchase.
- Cashless Claims: Integrate with hospital or service networks for direct settlement.
- Document OCR: Auto-extract data from uploaded insurance documents.
- Renewal Reminders: Send automated reminders before policy expiry.
- Agent Portal: Allow insurance agents to manage their client portfolio.
- Policy Bundling: Suggest and offer bundled insurance packages at a discount.
- Multi-Currency Support: Handle international policies with currency conversion.

- Mobile Responsiveness: Optimized for policy management on mobile devices.
- Analytics Dashboard: Policy sales, claims frequency, and revenue by product.
- Payment Gateway: Process premium payments via Stripe or Razorpay with automatic renewal support.
- EMI Payment Plan: Allow policyholders to pay annual premiums in equal monthly installments.
- Direct Claim Settlement: Pay approved claims directly to hospitals or service providers on the customer's behalf.
